Build responsive, **inclusive software**. Think design systems.
Work on something I believe in. Learn. Learn some more.
Keep on keepin' on.

experience

front-end developer at [pipedrive](#)

2019 — present · #crm · lisbon

- Contributed to one of the web app's features revamp: a flexible spreadsheet to handle product management tasks
- Worked in a micro front-end architecture

front-end developer at [farfetch](#)

2017 — 2019 · #fashion · lisbon

- Team lead in the accessibility guild
- Responsible for the company's first web app with maximum score on a accessibility audit
- Worked in an agile environment building e-commerce applications for luxury brands

front-end developer at [bog](#)

2013 — 2017 · #design · lisbon

- Accountable for +30 multidisciplinary projects, including a fully accessible platform for the blind and partially sighted
- Worked within a design and user experience driven culture

on a personal note,

I see myself as an easy going person, upbeat, and a driver for positivity and team spirit. Empathy goes a long way! I'm also a well-rounded and motivated person with clear notion of where I'm at and where I want to go.
